

NZARES Conference - 26,27 August 2010

Contributed Papers

THU AM	Room 1 Chair: Climate change	Room 2 Chair: Forestry	Room 3 Chair: Statistics and forecasting
1	Wei Zhang, Suzi Kerr, William Power and Levi Timar <i>Emission trading for forestry and agriculture: policy design and integrated simulations in New Zealand</i>	Narendra Chand and Geoffrey Kerr <i>Nepalese community forest management efficiency</i>	Grove and Watt <i>Agricultural production frame</i>
2	Wei Zhang, Suzi Kerr, Tom Adams and David Evison <i>Forestry in LURNZ</i>	Chandra Rai, Hugh Bigsby and Ian MacDonald <i>Small forests, big ambitions and a hard reality - Community forestry in Nepal</i>	Grove and Watt <i>Agricultural production survey</i>
3	Eric Karpas and Suzi Kerr <i>Preliminary evidence on responses to the forestry ETS</i>	James Tee, Riccardo Scarpa, Dan Marsh and Graeme Guthrie <i>A binomial tree approach to valuing fixed rotation forests and flexible rotation forests under a mean reverting timber price process</i>	Rod Forbes <i>Forecasting New Zealand whole milk powder prices</i>
THU PM	Room 1 Chair: Water quality	Room 2 Chair: Animal welfare	Room 3 Chair: Farm profitability
1	Dan Marsh <i>Water quality and recreational users</i>	John Hellstrom <i>Policy aspects of animal welfare</i>	B J Ridler, W J Anderson and P Fraser <i>Milk, money, muck and metrics: Inefficient resource allocation by New Zealand dairy farmers</i>
2	Tim Cox, Suzi Kerr, Kit Rutherford and Marie-Laure Nauleau <i>N-TRADER: a tool for investigating nitrogen trading in the Lake Rotorua watershed</i>	Katie Bicknell <i>Economic aspects of animal welfare</i>	David Evison <i>Profitability of agriculture and forestry land uses in New Zealand</i>
3	Marianna Kennedy, Hugh McDonald and Suzi Kerr <i>A review of trading efficiency in water quality markets</i>	Ric Scarpa <i>Farm animal welfare: consumer willingness to pay</i>	Matt Newman <i>Contribution of Dairy to the Economy</i>

FRI AM	Room 1 Chair: Land use	Room 2 Chair: Resource allocation I	Room 3 Chair: Miscellaneous I
1	Susanne von Muenchhausen <i>Defining pastoral systems in econometric land use models - some critical reflections</i>	Phil Journeaux, T Schischka, Y Phillips <i>Cost benefit analysis of reducing nutrients into the upper Waikato catchment</i>	Ross Cullen, Sharon Forbes, Rachel Grout and Clive Smallman <i>Evaluation of conservation biological control innovation in winegrowing</i>
2	W T Baisden, E D Keller, L Timar, D Smeaton, A Clark, A Ausseil W Power and Wei Zhang <i>New Zealand's pasture production in 2020 and 2050</i>	Dan Marsh and Lena Asimenye Mkwana <i>Does knowledge of the status quo affect respondent's attributes in choice modelling experiments? Evidence from the Karapiro catchment freshwater streams</i>	Kenneth Hughey, Ross Cullen and Geoffrey Kerr <i>A decade of public perceptions of the New Zealand environment: A focus on water and its management</i>
3	Arthur van Benthem and Suzi Kerr <i>Optimizing voluntary deforestation policy in the face of adverse selection and transfers</i>	Jim Sinner and Chris Batstone <i>How much is it worth? Assessing competing uses of natural resources (note: workshop continues through lunch)</i>	Todd Sanderson, Fredoun Z Ahmadi-Esfahani <i>Climate change and Australia's comparative advantage in broadacre agriculture</i>
FRI PM	Room 1 Chair: Resource allocation II	Room 2 Chair: Miscellaneous II	Room 3 Chair: Farming systems
1	Yvonne Phillips <i>Waikato home energy efficiency: Consumer perceptions and willingness-to-pay for improvements</i>	Edward Hearnshaw and Ross Cullen <i>Ecosystems analysis of water storage projects in Canterbury: The Opihi River case</i>	Terry Parminter, Neels Botha and Jon Tanner <i>Pricing an extension service for organic farmers and growers</i>
2	Levi Timar <i>Spatial allocation of land use transitions in New Zealand</i>	Glenn Greer and Tony Zwart <i>Good industry - good investments</i>	Anuwat Pue-on <i>The impact of capital intensive farming in Thailand: A computable general equilibrium approach</i>
3	Terry Parminter <i>A description of voluntary policy methods for natural resource management</i>	Caroline Saunders, Meike Guenther, William Kaye-Blake and Sini Miller <i>Consumer attitudes towards sustainability attributes on food labels</i>	Matt Newman <i>Competitiveness in the New Zealand dairy industry</i>
